COMMENTS

A random sample (including the largest) from these pearls has been tested. Pearls are described insofar as mounting permits observation. Mollusk identification is an expert opinion based on a collection of observations and analytical data.

This is a digital representation of the original GIA Report. To verify the information herein, please refer to reportcheck.gia.edu. This report is not a guarantee, valuation or appraisal and contains only the characteristics of the diamond described herein after it has been graded, tested, examined and analyzed by the laboratory providing this Report ("GIA") and/or has been inscribed using the techniques and equipment used by GIA at the time of the examination and/or inscription. Inscriptions reported in this document are not a guarantee, validation, or warranty of a diamond's quality, country of origin or source; or that the diamond will be identifiable by the inscription in the future (since inscriptions can be removed). GIA makes no representation concerning any trademark, word, or symbol which is inscribed by GIA or which is identified on this Report. The recipient of this Report may wish to consult a credentialed jeweler or gemologist about the information contained herein.
