 Geographic Origin Colombia

TREATMENT (Scan QR code for more information)

Clarity Enhanced (F1)

Item Description: Four (4) green stones set in a yellow metal brooch with six (6) near-colorless old mine brilliants and one (1) white sphere.
 Weight: 13.65 grams (gross)
 Measurements: 6.34 x 5.82 x 2.92 mm to 5.92 x 5.32 x 2.99 mm
 Comments: All four (4) green stones were tested.

Any statement on geographic origin is an expert opinion based on a collection of observations and analytical data. Due to their growth conditions in nature and recovery methods, most emeralds contain surface reaching features. For this reason, clarity enhancement is a common trade practice.
